

Project: Jayco Builders

Jayco Builders, a local builder, was looking for the perfect finishing touches to the extravagant new home they had constructed. Jayco Builders decided that luxurious hardscaping was necessary to pull the entire project together. Jayco Builders contacted Fred Adams Paving to create a chic and functional driveway and pool deck. Fred Adams Paving installed 3400 square feet of Belgard's Mega-Bergerac, an elegant yet subtle paver, in the driveway and pool deck. To give the home the prestigious look and feel that Jayco Builders desired, Fred Adams Paving installed Celtic steps leading from the pool deck to the driveway. The new home was a Parade Homes Silver Medal winner due to its sophistication and beauty all the way down to the last detail.

Creating elegant hardscaping environments.
